

LibreMax Employees Participate in Habitat Net Zero Project

On October 3rd, 2023, LibreMax demonstrated its continued support for Habitat for Humanity and local New Yorkers through another volunteer event with Habitat for Humanity. This year, LibreMax participated in Habitat for Humanity's Net Zero project and performed landscaping on a single family home in Queens.

The goal of the project is to create equity building opportunities for families in Southeast Queens. As part of this project, Habitat for Humanity has partnered with the Interboro Community Land Trust (CLT) to finance and construct energy efficient homes to provide first-time homeowners and their communities with the "stability, long-term affordability, and equity building power of a home". For more information on Habitat for Humanity and its projects and volunteer efforts, please visit the following link: <https://habitatnycwc.org/net-zero-announcement>
